Title: Way down deep

---

This highway of heartache is rocky and rough lord,  
I learned along time ago you cant build a fire in ashes of love roses don't bloom in the snow  
Way down deep in side my soul where once it was cold and dark i can feel your love take ahold way down deep in my heart  
You were my light on the darkest of days through the storms that were raging within then slowly but surely the clouds rolled away and the sun started shining again
