Title: Ways of a Parasite

---

In the filth of your failure, still suppressive  
The overlord's standing supreme  
Wounded through time, still it's breeding  
Your beckon call ignored

Not of the divine, still it's drinking your wine  
A parasites' vanquish in the light  
You are the well that waters his hatred  
Upon your sins he is feeding

The sins you made  
when Adam got laid  
Your life is a bitch  
because Eve got paid

...and the truth shall set you free...

Liar  
This blade I give to thee  
I put my trust in you  
Deep in you  
May your blood keep it warm

Liar  
The ways of the parasite  
not for your eyes to see  
As your icon withers  
Odin carries the prophecy

Fire forever
