

(Pilson, Hendrix)

Looking back on yesterday  
Where did I go wrong  
Just can't find the peace of mind  
I've wanted all along  
Oh, lord, oh it's true

Don't what you want from me  
Don't know what to do  
Let's walk this road together now  
'Cause I would die for you  
Oh, it's true

'Cause we all need someone to love  
Everybody needs a friend when they can't hold on  
Now we all need someone to love  
You've gotta feel it from inside of you  
Oh, lord, it's true  
We all need someone to love

Everyone can always win  
Even if you lose  
Take some time  
and take a chance  
and make your dreams come true  
Oh, lord, oh it's true

You've got to love the one you're with  
Until the very end  
We've been to hell and back, my friend  
And I'd do it all again  
Oh, for you  
I'd do it for you

'Cause we all need someone to love  
Everybody needs a friend when they can't hold on  
Now we all need someone to love  
You've gotta feel it from inside of you  
Oh, lord, it's true  
We all need someone to love

Oh, we've gotta keep trying  
It's hard to draw the line  
Can't you see  
Put your trust in me  
We'll stand the test of time  
Gonna stand the test of time  
Yes, we will

We all need someone to love  
Everybody needs a friend when they can't hold on  
Now we all need someone to love  
You've gotta feel it from inside of you  
Oh, lord, it's true  
We all need someone to love  
We all need  
'Cause we all need someone to love  
To love  
To love--Yeah, we all need someone to love  
(repeat)
