Title: We can move a mountain

download from: <http://www.lyricsdisc.com>

We can move a mountain
If we really try

Truthfulness, sincerity
Are virtues in decline
Loneliness, anxiety
Are growing all the time.

We can help each other
If we find a way to share.
Let us show each other that we care.

We can move a mountain,
We can touch the sky,
We can make a difference
If we really try
We can move a mountain,
We can touch the sky,
We can make a difference
If we really try

The world we know is changing fast,
It really blows your mind;
Let us show compassion for
The people left behind.
