

I'm not alone  
Even when we're apart  
I feel you in the air (yeah)  
I'm not afraid  
I know what you're thinking  
I can hear you everywhere

Some people say it'll never happen  
That we was wastin' time  
But good things come when you least expect them  
So i don't really mind

We'll be together  
Come whatever  
Not just starin' at the stars  
Just remember  
That no one else can tell us who we are  
We'll be together  
So don't ever stop listenin' to your heart  
Cause i can't turn mine off (whoa, whoa)

I can't pretend  
That this is all rehearsal for the real thing  
Because it's not  
And i know we're young  
But i can't help feelin' what i'm feelin'  
And i won't stop

Some things are meant to be  
And they will be there when the time is right  
Even though i know that  
I swear i wish you was tonight

We'll be together  
Come whatever  
Not just starin' at the stars  
Just remember  
That no one else can tell us who we are  
We'll be together  
So don't ever stop listenin' to your heart  
Cause i can't turn mine off

Oooh yeah  
I like what's happening to me  
Oooh yeah  
Nothing else to say oh  
Oooh yeah  
Something finally got to me  
Carry me away (carry me away)

We'll be together  
Come whatever  
Not just starin' at the stars  
Just remember  
That no one else can tell us who we are  
We'll be together  
So don't ever stop listenin' to your heart  
Cause i can't turn mine off (whoa, whoa)

We'll be together  
Come whatever (oh, oh)  
I'm not alone  
Even when we're apart i feel you
