Title: What a sweet thing that was

download from: <http://www.lyricsdisc.com>

You said hello and loneliness said goodbye then
it made me so glad i almost had to cry then
i never believed in love at first sight
but when you held me tight that night
i knew with you it wasn't a lie now
said oh my my my my my my my
what a sweet thing that was (sweet thing that was)
your soul was sweet, your lips were warm and tender
i wanted your kiss, i couldn't resist surrender
i could have sworn that violins played
'cause when the rhythm swayed
with you so near, i heard the sound of your sigh now
said oh my my my my my my my
what a sweet thing that was (sweet thing that was)
i heard you sighing, wo
i felt like crying
you weren't lying, no no
what a sweet thing that was (sweet thing that was)
and then when i heard you whisper the word forever
i knew that we'd live the rest of our lives together
the feeling we shared was too much to bear
and when you said you cared, i swear
i felt that i was ready to die now
said oh my my my my my my my
(repeat and fade)
what a sweet thing that was (sweet thing that was)
