Title: What I Want To Do

download from: <http://www.lyricsdisc.com>

What I want to do is wake up to you
Bathing in the morning's light
All I want to say is bomb's away
Could you be my girl tonight
Out here on the street we move around all that we need
So tell me

What do you believe makes the world go 'round
What do you believe makes the world go 'round

What I want to do is find something new
Shiny like a brand new toy
All I want to take is what I make
Feeling like a brand new boy
My sweet city days- I try to slide and fade away
To nothing

What do you believe makes the world go 'round
What do you believe makes the world go 'round
What do you believe makes it all keep turning as it's going down
Oh babe, you gotta know it's gonna have to go
