Title: When A Woman

download from: <http://www.lyricsdisc.com>

-verse-

He met her in his home town a couple of years ago
She was beautiful inside and out
How could he just let her go
He had girls on the side and he tried to hide
But somehow she knew
Still she stayed
She stayed

-bridge 1-

But she would always cry
Every night
But then he noticed a change
She no longer had tears on her face

-chorus-

When a woman stops crying
You best believe she has a new plan
She's preparing for something new
Something that doesn't include you
When a woman cease to cry
She's bout ready to say goodbye
Goodbye

-verse-

When you stay out late
She don't call to ask where you are and where you at
She just gives you this look when you come home
That says better watch your back
Fellas listen to your girl when she tells you that
She's all cried out
You better pray
That she stays

-bridge 2-

If she no longer cry's
Evrey night
If she doesn't complain anymore
She's making her way to that front door

-chorus-

When a woman(help me ya'll)stops crying
You best believe she has a new plan(yea yea yea)
She's preparing for something new
Something that doesn't include you(doesn't include you no)
When a woman cease to cry
She's bout ready to say

-verse-

Just as long as she is arguing
Fussing and complaining
As long as she will cry sometimes
Everything is alright
But as soon as she is quiet
When you mess up she's silent
And has this certain smile upon her face

-chorus-

When a woman stops crying
You best believe she has a new plan
She's preparing for something new(help me ya'll)
Something that doesn't include you(baby it don't include you)
When a woman cease to cry

When a woman stops crying
When a woman stops crying
When a woman stops crying over you
