Title: When i'm with you

download from: <http://www.lyricsdisc.com>

This life of mine sometimes
Feels like a roller-coaster ride
It lifts me up lets me down
It gets me spinning around helter-skelter
When it's too much to take
I know the perfect way to escape
I stop and whisper Your name
And I feel everything change for the better

When I'm with you I smile
And it comes from the inside out
Just like the sun breaking through the clouds
All the love deep inside of my heart
Comes a live
And I know that
All of my dreams will come true
When I'm with you

Just when his fragile heart
Wants to give up and just fall aprt
A few sweet moments with you
Will have me feeling like new safe
And happy
This is the remedy
I'm just as sure as I'll ever be
The only place for my heart
Is right wherever you are
Now and always

I know I can't describe
The way I feel inside
My time with you is like an open
Book to heaven
Something comes over me
Like a gentle summer breeze
And I want to be close to you forever
