

(chorus)

When it rains I pour a couple more rounds
Till the hurtin' and the heartache start to drown
I turn out the light I turn up Dwight
And I lock my door when it rains
When it rains I pour

When life ain't going my way
And I can't take one more day of gray
Hey hey it's ok
I don't need a dose of Dr.Phil
I don't need your make it all better pill
When I'm low
Don't you know don't you know

When it rains I pour a couple more rounds
Till the hurtin' and the heartache start to drown
I turn out the light I turn up Dwight
And I lock my door when it rains
When it rains I pour

I don't have to have a girls night out
Or run around with a rowdy crowd to get down
Whiskey bent and hell bound
When I feel like I ain't got a friend
I just call on my old buddy Jim again
And again I like him

When it rains I pour a couple more rounds
Till the hurtin' and the heartache start to drown
I turn out the light I turn up Dwight
And I lock my door when it rains
When it rains I pour

Oh don't you know
When it rains
When it rains
I pour
