Title: When you come back to me

download from: <http://www.lyricsdisc.com>

Just afloat on the sea
Find myself on a page of history
You know as I ride along
There's a memory of a song
About you,
And where you're meant to be
You're going to tell me the answer
I'll know
When you come back to me

If we fall,
Love will catch us every time,
I hear you call, I will run
And when the magic of the adventure overcomes
We won't cry because it could be fun.
I'm going to tell you the answers
You'll know
When you come back to me
