

The sun came up
Desperate, desperate
The stars above
Held you back once again

Half way here
Half way here
They whisper
You talk so much sense
When you're sleeping
When you're sleeping
And you share all the secrets
And the mystery when you're sleeping

I saw your tears
Violet, violet
And it's been years
The skies been crying for you

I found out beautiful things about you
You talk so much sense
When you're sleeping
When you're sleeping
And you share all the secrets
And the mystery
When you're sleeping

So you go and wonder
Where you wander
Lose yourself to
Take us higher
And I'll be waiting
For you when you're down

You talk so much sense
When you're sleeping
When you're sleeping
And you share all the secrets
And the mystery
When you're sleeping

You talk so much sense
When you're sleeping
When you're sleeping
And you share all the secrets
And the mystery
When you're sleeping
