

Everybody needs someone  
everybody's on the run  
everybody's looking for  
the love, that we need  
the love, that we miss

Everywhere is love around  
but loneliness is still what I found  
everybody's looking for  
the love, that we need  
the love, that we miss

Where are you tonight  
I need your love  
I need it to feel right  
where are you tonight  
I'm missing you by my side  
I'm missing the magic of your eyes babe

Tired of those loneley nights  
empty streets and darkest lights  
everybody's looking for  
the love, that we need  
the love, that we miss

Everybody needs someone -  
and myself I'm still on the run -  
searching for - what I lost a long time ago  
and I know,  
what I need is only you
