Title: Where Dreams Collide

download from: <http://www.lyricsdisc.com>

---

Hear the warning Echoes from above See the dawning rise upon the sky  
Time leading the blind Truth untangling your mind  
Hear them calling from the other side See me falling right before your eyes

Time leading the blind Truth untangling your mind Captured at the state  
where dreams collide  
Behold the morning Sentinel of dew Sea of visions Visions of the sea
