Title: Where has the childhood gone

---

I remember all the days  
which have gone by  
Years before now,  
when I was a child.  
We ran through the town,  
and held our hands.  
We did all the things  
which we had planned.  
Where has it gone  
Where has the childhood gone?  
Where has it gone  
Where has the childhood gone?  
For thousand of times  
we played down in the street  
We had fun while we played  
hide and seek.  
We ran though the town  
like we'll never do anymore.  
We did all the things we should ignore.  
Where has it gone...?
