Title: Where's the world

download from: <http://www.lyricsdisc.com>

Mountains touch dirt skys land
striped bare and dry
Malaysia. Asia a place I'll never see.
I want what you got
(Chorus)
Their not going to change
the world would be the same
We are not going to change
their not going to change
For you! For you!
oil coats the land. fish don't
understand
Exxon. Alaska, will it ever be
the same?
I want what you got.
(chorus)
Another species gone
Landfills drop a bomb
the amazon a lost song. The things I'll
never see.
I want what you got.
(chorus)
Not Not gonna change (repeat)
