Title: Window of hope

download from: <http://www.lyricsdisc.com>

Verse 1:

In the darkness of your private room
you've been pickin' at the scabs
of some old wounds,
cuddling up to sorrow
like it's your best friend,
thinkin' it's an inescapable end,
but see the light shining on the wall,
it's gonna shine through the nightfall,
can't you see.....

Chorus:

A window of hope
shining the light on every problem,
a window of hope,
there's always a chance that you can
solve them.

When you think it's all over
and you wanna let go,
the faintest glow is there
to help you, I know.
Keep looking for the light
of the window of hope.

Verse 2:

You're shadow boxing almost everyday.
Don't you think it's time to
put your gloves away.
This kind of punishment should be a sin,
face it, that ain't no way to begin.
But see the light shining on the wall,
it's gonna shine through the nightfall,
can't you see.....

Chorus:.....

Bridge:

Hope is the sea of life
that was meant to flow
as a never ending stream
and I can sleep at night
now that I know
hope is a waking dream,
can't you see....

Chorus:.....
