I live beneath the heart
I watch you from the dark
I'm every breath I'm every dream
I've known you forever
I've followed you everywhere
I'm every scar I'm who you are
when you think you're alone
when you cry cause someone's unfair
you can rest assured I'm always there

even when you feel like you don't belong
even when you fall and it all goes wrong
you know that I'm with you
that I'm with you all the time

say a little prayer for the restless heart
we shall never ever drift apart
know that I'm with you
know that I'm with you
with you all the time

I'm walking round the room
I'm laughing when you smile
and when you cry I cry too
I made you a promise
that I shall forever be>>>>>>>>>>>>>>>>>>>>>> = keep
you're on your own but not alone
when you're down and you're rife
and the world tells you no-one cares
you can rest assured im always there

even when you feel like you dont belong
even when you fall and it all goes wrong
you know that I'm with you
that I'm with you all the time

say a little prayer for the restless heart
we shall never ever drift apart
know that I'm with you
know that I'm with you
with you all the time

save a little love for me
you'll see
save a little love for me
you'll see
save a little love for me
you'll see
and you'll see

even when you feel like you dont belong
even when you fall and it all goes wrong
you know that I'm with you
that I'm with you all the time

say a little prayer for the restless heart
we shall never ever drift apart
know that I'm with you
know that I'm with you
with you all the time

you know that I'm with you
that I'm with you all the time

say a little prayer for the restless heart
we shall never ever drift apart
know that im with you
know that im with you
with you all the time
