

Well I want to tell you
Things I've seen
I never knew you then
I think about the things you did
I wish that I knew when
But I want to think about you now
I never left you long
Though the things you said you did
Don't fit into this song

I'm wondering if I'll ever see you
Wondering if I can
Wondering if I'll ever see you
I think I will I can, 'cause I'm...

Wondering, wondering out loud
Wondering, wondering out loud for you
Wondering, wondering out loud
Wondering, wondering out loud

Sometimes when I think about you
Lying on your own
I still think I'm gonna love you
Gonna take you home
I still think things about you
I know I haven't seen
Perhaps these things will come and tell me
What I really mean

But I think about you every morning
Even when you're gone
I think about you and your heart
Think about how long, I'll be...

But I think about you every morning
Even when you're gone
I think about you and your heart
And think about how long, I'll be...
