

Show me the one thing I always wanted  
Unwilling sacrifice  
Deeper your reason, less than I'm feeling  
Towards you this time

If only you could see my way  
If only words could heal my friend

Understand one thing I've never wanted  
You to change my life  
Circumstances may take advantage  
Over you tonight

If only you could see my way  
If only words could heal, my friend

If only you could see my way  
If only words could heal, my friend

If only words could heal, my friend  
If only words could heal again
