---

You be my friend  
(repeat)  
You're certain, convicted  
Younger and beautiful  
I am uncertain  
not sure directionless  
you bare your soul  
and you're torment convincingly  
biting my nails  
do I look ill at ease  
You be my friend  
(repeat)  
You are so pretty and  
witty and natural  
charming engaging with it  
and upto date  
I fit to others  
you stand heroically  
you yeah why not you  
I bow down not quite so well  
you be my friend  
(repeat)
