Title: You got me hummin

download from: <http://www.lyricsdisc.com>

I don't know what you got
But it's gettin' to me
It makes my cold nights hot
Hot winds just blow right thru me

Oh, power!
Lady, it's in your hands

Chorus:

You got me hummin' now
Ya you got me hummin' now

I wake up early at night
I can't get back to sleep now
I'm walking in a red light
Tired of talking, I try to sleep now

When I try I sleep walk
That's when my feet, they start a runnin'
