

I called you up to tell you
I'm about to lose my mind
I've tried my best to reach you
Oh so many times
Carrie I tell you true girl
You've got me collared
I've been cuffed
You've got a hold on me
I can't get loose
You know I need you so much
And now I hear that you've been crying
Oh you can come crying to me
Cuz I don't want to see you dying
Or read your diary
Young girl in love
Make up your mind
You're freezing
All of my time
Young girl in love
I've become so attached
Will it last
Young girl in love
So you found yourself a lover
No nights of loneliness
You gave them all you had to give
With a touch and a tender kiss
Then you found yourself in trouble
It was love or so it seemed
Then he turned his head
And walked away
Left you hanging by your dreams
And now I hear that you've been crying
Oh you can come crying to me
And I don't want to see you dying
Or read your diary
Young girl in love
Make up your mind
You're freezing
All of my time
Young girl in love
I've become so attached
Will it last
Young girl in love
I understand the troubles
That occur inside your mind
(You can come crying to me)
I understand
Oh I understand
The pressures in your precious little mind
Young girl in love
Oh make up your mind
You're freezing
All of my time
Young girl in love
I've become so attached
Will it last
Young girl in love
Oh make up your mind
Stop wasting my time
Young girl in love
I've become so attached
Will it last
Young girl in love
Young girl
Young girl
Young girl
Young girl in love
