

We all got
Somebody we love
We don't got
A lot of faith in the above
A little sunshine
Will please and thank you all right
When it's cold out
When it's cold outside
Don't you
Forget what I need
A little inspiration
Gets me through where I've been
I've got
An army escorting me on
An army escorting me on
Don't give me one more reason to
I've got somebody I love
I trust in you and me
To keep us up above
The dark clouds
That are circling 'round sunshine
Well I need ya'
I need your love
Well I need ya'
I need your love
I need your
Don't you forget what I need
A little inspiration
Gets me through where I've been
I've got
An army escorting me on
Don't give me one more reason to
Woah
Woah
We all need
Somebody to love
To give a little and receive
Well it ain't so tough
Show me a road of mine that I haven't seen
And I've got mine at home
She's waiting for me
Well I need you
Well I need your love
Well I need you
Well I need your love
Well I need you
Well I need your love
I need ya
I need ya
I need your
And don't you
Forget what i need
A little inspriation
Gets me through where I've been
And I've got an army escorting me home
So dont' give me one more reason to
Well I need you
I need your love
I need you
I need your love
I need you
I need you love
I need ya
I need ya
I need your love
