Title: You're the reason i'm leaving

download from: <http://www.lyricsdisc.com>

Some granite wall
Numbs our bones, numbs our all
As we sit on skinny hands
Nothing to say, nothing at all
I don't know you and I... I don't want to
You're so awkward just like me
But I don't care

You're the reason I'm leaving
You're the reason I'm leaving
If I leave then we don't stop leaving alone

I'd no idea that in four years
I'd be hanging from a beam
behind the door of number ten
Singing well fare thee well
fare thee well
fare thee well
I am leaving
Yes I leave it all to you

You're the reason I'm leaving (I'm leaving alone)
You're the reason I'm leaving (I'm leaving alone)
If I leave then we don't stop leaving alone
You're the reason I'm leaving (I'm leaving alone)
You're the reason I'm leaving (I'm leaving alone)
If I leave then we don't stop leaving alone

As we ride along under an optimistic sun
The radio sings that Everybody song by REM
And Here I Am Fighting Fighting
Yes I'm Fighting not to cry
And that's another reason
Why I oughtta hate you like I do
Like I do
oh Like I do.

You're the reason I'm leaving (I'm leaving alone)
You're the reason I'm leaving (I'm leaving alone)
If I leave then we don't stop leaving alone

I'm the reason you're leaving (I'm leaving alone)
I'm the reason we're leaving (I'm leaving alone)
If I leave then we don't stop leaving alone
